

The programs we organise include various attractive but potentially dangerous elements, which is why safety is our top priority. Our instructors are trained according to the standards of Outward Bound International Board, and have participated in additional training courses in international centres (OB United Kingdom, OB Singapore, OB New Zealand, OB South Africa). All of the instructors are experienced “outdoor people” with years of experience - climbers, cavers, kayakers, hikers, former soldiers, rescuers, members of mountain rescue, etc.

Our instructors spend the whole day with participants in the field. They are responsible for the successful implementation of the program, coordination of the clients’ wishes with the situation in the field (weather, physical fitness of participants, equipment, etc.), and most importantly, the safety of all participants. Every evening instructors are conducting a brief analysis of the previous day, and if necessary adjust the programme schedule of the next day. The analysis includes discussion with the person responsible for logistics, person responsible for the quality of all programs - Program Director, checking the weather forecast, coordination with local rangers, etc. Please note that sometimes it will not be possible to establish immediate contact with our instructors during the program due to the lack of cell phone signal. However, other members of the team in the field (Program Director, logistics), or our office staff will always provide you with the necessary information.
